UNPLEASANT INCIDENT IN SIMLA HILLS.

On the arrival of the last mail from England; the Connaught] Rangers got much excited over the accounts which reached them of recent events in Ireland.

One-fourth of the Battalion remained entirely loyal to the Colonel, but the remainder laid down their arms and surrendered their ammunition, and, while entirely respectful to their officers, regretted their inability to perform their duties. They declared their sympathies with their friends at home and they are now in a separate camp, with another British regiment in charge.

When this news reached a detachment at Solan, in the Simla Hills, some men tried to seize arms and cartridges, and the guard fired, two being killed and one wounded. All is now quiet.

DISARWAMENT OF GERMANY.

TO BE EFFECTED "AT ANY PRICE."

Brussels, July 3. The Conference has come to the conclusion that it is necessary Governor Cox, 332; Mr. Palmer, 255. to secure the disarmament of Germany at any price, and Marshal Foch and Field Marshal Sir Henry Wilson have been directed to consider practical means of imposing upon Germany the execution

of the disarmament clauses of the Treaty. APOLOGY TO ALLIES!

The Minister of Defence has apologised to the 'Allies for the insulting behaviour of the population at Bremen and elsewhere during the Allied Commission's tour of inspection for the purpose of supervising disarmament.

THE INDEMNITY BASIS.

Brussels, July 3. It is understood that the Conference has decided upon a draft Note for presentation to the German delegates at Spa. The Note insists on the delivery to the Allies of all war material, also the abolition of conscription.

A private meeting of the Premiers reached an agreement on the apportionment of the indemnity on a basis of 56 parts to France, 25 to Britain and 28 to the other Allies. Difficulties have, however arison regarding the distribution of the last-named 28. The matte was again discu-sed this morning.

BELGIUM'S POSITION.

Brussels, July 3. The Conference of Premiers has resumed discussion of the distribution of the indemnity. Provisional suggestions for a division on a preferential basis were abandoned temporarily. It is understood proposals will now be made whereby Belgium abandons her right to preferential indemnity, receiving instead a percentage of the total reparation, which will work out for France at 52; Britain, 22: and Belgium, 14. It is understood the Italians are favourably the platform as submitted. disposed to the proposal.

ITALY AND BELGIUM.

Paris, July 3. It is learned from Brussels that the work of the Conference was delayed unexpectedly lowing to a bitch in connection with Belgium's percent age of the indemnity. The incident is believed to be due to the action of Italy in demanding that Belgium should abandon in Italy's favour part of the percentage assigned to her. It is expected that the matter will be settled to-day, Italy having declared that she will not insist on a system of annual payments, provided an agreement on the percentage of Germany's payments for each of the Allies is fixed prior to the Spa Conference.

CHAMPIONSHIP TENNIS.

TILDEN WRESTS TITLE FROM PATTERSOS.

London, July 3. At Wimbledon, in the Singles Championship final. Tilden America) beat Patterson (Australia), the Holder of the Championship, by 2-6, 6-3, 6-2, 6-4.

WHY TILDEN WON.

Wimbledon, July 3 ever seen in the country. Throughout the pace was terrific. Both possess super-services, furnishing both with many winners outright. But the test came when, after the experimental first set. Tilden settled down to plugging on the loser's backband relentlessly with a heavily chopped ball, which, throughout the last three sets, Patterson was seen netting consistently. Experts point out that Patterson's backhand is fundamentally weak because he plays it with a foreband grip and the forehand face of the racket.

DEMOCRATIC CONVENTION.

San Francisco, July &

THE HONGRONG THE BERLEH. TURSDAY JULY 6. 1990.

The Democratic Convention devoted three and a half hoursto the prohibition debate. Mr. Bryan showed his old-time oratorical brilliancy the games were close and interestand argued that it was dangerous to weaken the law. Mrs. Olesen ling, the U.S.R.C. winning by five (Minnesota) was introduced as representing the motherhood of America. Mr. Bourke Cockran developed the argument that prohible enjoyable of a series of matches tion was contrary to the spirit of democracy.

The Convention plank favours the League of Nations as the surest if not the sole practicable means of maintaining the peace of the The Manhamais world and terminating insufferable naval and military burdensy endorses the President's views on America's international obligation and his firm stand against the reservations designed to cut the Ver sa 'es Treaty to pieces. It advocates immediate ratification of the Treaty without a reservation impairing easential integrity, but doe not oppose a reservation clarifying. American obligations in th League of Nations. The platform calls attention to the successive operation of the Federal Reserve system of preventing an undue in crease in the coat of living. It pledges that the Democrats will contriv to settle labour disputes without resort to strikes, expresses sympath with China and declares that when the Government of Mexico give proof of ability to maintain order it should receive the recognition an assistance of the United States.

Mr. McAdoo's adherents did not desire an adjournment claiming the they would secure nomination of their candidate at the fourth ballo They voted loudly for the negatire. Chairman Robinson declare that the motion was carried, while the McAdoo men were clamouring for the roll call.

San Francisco, July 3. The reading of the platform by the Chairman of the Resolution

Committee. Senator Caster Glass, was marked by frequent applause. The Convention rose and cheered a full minute at the platform's declaration in regard to the League of Nations. Another wave of cheering arose at the mention of the ratification

of the Treaty. The reference to the women suffrage plank called forth a demonstration which lasted for thirteen minutes, the delegates parading in

the hall.

London, July 3.

The "Daily Telegraph" correspondent in New York says that Mr. W. G. McAdoo's chances of securing nomination are still booming, but he is being injured by the title "Crown Prince" invented by his opponents, who are losing no time in emphasising the charge that Dr. Woodrow Wilson is anxious to keep the Presidency on his family. The prospects of a third Party being formed increase as it becomes evident that the Democrats will give the advocates of an Irish Republic small satisfaction, and the German element is becoming disgruntled over the League of Nations policy and the prospect of the continuation of Wilsonism. ..

HONGKONG GOED.

San Francisco, July 3.

A shipment of gold \$6.500,000, consigned to Messes. Morgan's. has arrived from Hongkong. It is understood that this is part of the balance of the loan to South Russia by American and British bankers.

The imports from Europe amunited to \$92,000,000; from South America, \$63,990,090; from India, \$195,000,000; from North America. \$133,000,000. ..

EX-GERMAN TRADE-ROUTES.

Washington, July 2.

Admiral Benson, Chairman of the Shipping Board, announces an agreement between the Hamburg-America Line and the American Ship and Commerce Corporation whereby ex-German trade routes will be opened by American shipping. It has been submitted for approval to the Shipping Board.

AMERICAN WOMEN VOTERS.

Washington, July 2.

Following a conference with Mr. Harding, Mr. Clement, the Go vernor of Vermont, indicated that he would immediately call a special session of the Vermont Legislature to consider the Woman Suffrage Grand Council of the Middle amendment of the Federal Constitution, which only requires ratification by one more State to make it effective.

MEXICO'S FOREIGN RELATIONS

GENERAL NEWS.

PROTECTION AGAINST X-RAYS. Paris, May 26.-At the Academy of Science yesterday M. Daniel Berthelot announced that an important discovery had been made by Dr. Pech, which would ensure the protection of operators against the effects of Xrays. It consists of a process which neutralizes the ultraviolet rays by the simultaneous application of infra-red rays.

THE MIDDLE CLASSES UNION. The first annual meeting of the lasses Union was held at the Connaught Rooms recently. Over 160delegates attended. Among the matters considered were the continued demands for wage increases, the necessity for further revision of income-tax with a view to obtaining greater justice for those in receipt of small socalled unearned incomes, and the necessity for extending the benefits of the Housing Acts to members of the middle classes.

DR. TERRY ON SHOP BALLADS.

At the annual musical competitions at Holl, Mr. R. Torry, Mus. Doc., of Westminister Cathedral, who was the chief adjudicator, offered some criticism. The test piece for contraltos was "Like as a hart." This he described as sloppy sentimentality which ought to be eliminated from English music. No town was wealthy musically when it confined itself to solo singing of shop ballads.

UNIVERSITY FOR CHINA?

The comment from the banton Times which we published on Saturday regarding the proposal of establishing a University for well supplied. Not only is there from the Colony. He had gone South-West t hins was deeply interesting and very much to the point. The main argument was that it would be far better, under present conditions, to abandon the idea altogether and devote the sum already appropriated to the scheme to the better development 020,000 gallons of filtered water The Magistrate showed him some of primary and industrial schools. That suggestion was made after a review of all the circumstances, due note being taken of the higher educational facilities which are already available, and we think that it is one the soundness of which cannot be questioned. Seemingly, from an appeal which has since been made by the Kwangtung Provincial Assembly in favour of the University being was 24.6 gallons including trade established in Canton, if it is to be provided at all, there was an idea supply. We don't know on what of erecting the building in Shanghai-on what grounds we do not basis the population was estimatknow. The contention of the Kwangtung Assembly is quite understandable, for it would be far more in keeping, if such an institution were to be created, that it should be established in one of the South-Western Provinces than in the international settlement of Shanghai.

Some years ago, there was a big campaign launched in favour readers have all read of the low water mark between 9 p.m. of the provision of a Central China University at Hankow.
